EPA Region 2

While Freedom of Information Act (FOIA) requests will be honored by directly writing to Region 2, EPA provides an increasing amount of environmental media information, and other Regional activities via Internet at <http://www.epa.gov>.

Region 2 has provided a FOIA Web site <http://www.epa.gov/region02/foia/> with several online databases from which the environmental information can be retrieved.

- **"Frequently FOIAed Files"** Web site <http://www.epa.gov/region02/foia/fff.htm> covers RCRA and many other media Programs. Through this Web site, you can learn about each media Program, associated databases, and special points of interest. In particular, the ability to "directly download" all of the most commonly requested Region 2 Export Files (.xls) and Reports (.pdf) - all compressed for quicker downloading.

EPA Region 2 has established a **list of contaminated facilities** that are a high priority for cleanup in New York, New Jersey, Puerto Rico and the U.S. Virgin Islands. You can view each facility fact sheet at <http://www.epa.gov/region02/cleanup/sites/>

- **Envirofacts Data Warehouse** Web site <http://www.epa.gov/enviro/index.html> is a one-stop source to the environmental information. This Web site provides access to several EPA databases with information about environmental activities that may affect air, water and land anywhere in the United States.
- **"My Environment"** Web site <http://www.epa.gov/myenvironment> is a powerful tool that provides a wide range of federal, state and local information about environmental conditions and futures in an area of your choice.
- **The Enforcement and Compliance History Online (ECHO)** Web site <http://www.epa.gov/echo/> provides a list of all inspections and enforcement under most of the environmental statutes.
- **Right-To-Know Network (RTK Net)**, a non-EPA Web site <http://www.rtknet.org/> on-line query engine provides free access to numerous databases and resources on environment.
- **National Biennial RCRA Hazardous Waste Report** Web site <http://www.epa.gov/epaoswer/hazwaste/data/biennialreport/index.htm> provides documents and data on hazardous waste reports.
- **Conditionally Exempt Small Quantity Generators** Web site <http://www.epa.gov/osw/hazard/generation/cesqg.htm> provides information on Conditionally Exempt Small Quantity Generators.

Dear Generator:

The New Jersey Department of Environmental Protection and Energy has reviewed its data base listing the amount of hazardous waste manifested off site by regulated generators. Our review indicates that your facility may fall into one of the following categories:

A) Small Quantity Generator

B) One time clean up of a hazardous waste discharge

If your facility does not generate hazardous waste and you wish to deactivate your EPA identification number, prefixed by the letters NJD or NJT, please contact the Bureau of Advisement and Manifest at the address listing below:

New Jersey Department of Environmental Protection & Energy
Division of Hazardous Waste Regulation
Bureau of Advisement & Manifest
401 East State Street, CN 028
Trenton, N.J. 08625

If your facility does generate hazardous waste, but never in quantities greater than 100 kilograms (220 pounds) of listed or characteristic waste, or 1 kilogram (2.2 pounds) of acutely hazardous waste, or 1001 gallons of waste oil in any one month, you may wish to deactivate your fully regulated generator (NJD) number and replace it with a small quantity generator (NJX) number. Applications for the (NJX) number can be obtained by calling Ms. Becky Bonfonti at (609) 292-7081.

Should you decide to retain your fully regulated generator number, your company will be subject to inspections and fees pursuant to N.J.A.C. 7:26-4A.

Should you have any questions concerning this matter, please call Mr. Jeffrey Sterling, Section Chief, at (201) 669-3900.

Sincerely,

Peter T. Lynch, Chief

1.0 INTRODUCTION

In accordance with RCRA policy, hazardous waste transporter, generator, or treatment/storage/disposal (TSD) facilities are subject to Compliance Evaluation Inspections (CEI) which address facility environmental concerns. The inspections are conducted to evaluate compliance with all applicable standards promulgated under 40 CFR Parts 262 through 268.

Under TES V Work Assignment R02035, CDM Federal Programs Corporation (CDM Federal) was contracted to conduct a CEI at the Chemfi Corporation facility in Newark, New Jersey. Aaron Frantz of CDM Federal visited Chemfi Corporation on September 20, 1993 to conduct the CEI. The information within this report was obtained from facility personnel and onsite records during the CEI, except where referenced otherwise.

The CEI was conducted using (as appropriate) the New Jersey Generator Inspection Report and the New Jersey Hazardous Waste Inspection Report. These documents were used as a basis for the inspection. All pertinent information is recorded in the inspection narrative. When necessary, relevant checklists were completed to provide additional detail when specific concerns were encountered during the inspection.

2.0 SITE BACKGROUND

2.1 FACILITY DESCRIPTION AND OPERATION

Aaron Frantz of CDM Federal searched for Chemfi on September 20, 1993. The facility could not be located.

An attempt was made to contact Chemfi with the telephone number, (201) 768-6800, that was provided by the U.S. EPA. This is the telephone number for Carlee Corporation (Carlee). John Frank, Carlee Controller, stated that Chemfi had been a subsidiary of Carlee and became defunct in the late 1980's. Chemfi's operation consisted of manufacturing fiber fill. Carlee corporation is located in Rockley, New Jersey and any correspondence regarding Chemfi could be delivered to P.O. Box 26 in Northvale, New Jersey. No further information was obtained.

Report Description

This report presents available information from the Resource Conservation and Recovery Act Information System (RCRAInfo) about compliance evaluations, violations, and enforcement actions meeting the criteria supplied by the user. Evaluations showing no violations does not always indicate that no violations were determined. Violation without enforcement actions does not always mean no enforcement action will be issued. In order to avoid releasing enforcement sensitive information to the public the following information is not shown on the report: pending civil / judicial referrals, criminal actions and referrals, and State to EPA referrals; all other enforcement actions are released.
